

HOLSTEIN

CATALOGUE

August 2017

www.cogentuk.com

Welcome to the 2017 Winter / Spring edition of the Cogent Australia Sire catalogue.

It is a pleasure to introduce you to a selection of newly available International Holstein Sires. Included in this edition are a range of high ranking GTPI bulls and outstanding type specialists that are also available sexed and will suit a variety of different farming systems.

In addition to the new sires, you will find information on the complete portfolio of well established genomic and newly proven sires.

All the best in breeding,

Peter Semmens

Sister to dam of SAMITE
Guye Holdings Mogul Silk 1355 VG85
Photos by Bradley Cullen

Samite combines the production and type of his sire Monterey with an attractive health and fitness package and mammary systems. Samite traces back to the ever consistent Glen Drummond Splendour/Shower cow family.

The Man-O-Man 2nd Dam; M-Gee O Silk has been described by countless visitors including our own Andy Smith as one of the best cows in Australia.

Samite is one of the easiest calving sires at 5.0% in our catalogue, and with a Daughter Fertility Index (DPR) of +2.8 it comes as little surprise that he has been very popular in Australia this season.

SUPERSHOT daughter in Italy
Photo by Giorgio Soldi

Cogent SUPERSHOT daughters are calving in around the world and are impressing in many countries. Recently a SUPERSHOT daughter in the UK was the youngest animal in the UK to be scored VG88.

"Our 1st SUPERSHOT daughters have calved and they are lovely heifers with outstanding udders. We are looking forward to when more of our SUPERSHOT daughters calve in the coming months."

Garry, Lee, Cody Hibberd & family, Cooriemungle, Victoria

"After having now seen SUPERSHOT daughters in milk in 3 countries now the daughters display tremendous dairy strength and width throughout in frames every modern dairy farmer is asking for, all this with udders that are going to last many lactations with ideal teat size and shape I have not spoken to a dissatisfied farmer."

Martin Glennen, Breeding Consultant Cogent Australia

Dam of POPEYE
Photo by Alger Meekma

Popeye has been one of Cogent Australia highest demand sires with customers impressed with calves born to date – thrifty , easy calving and high % of black

POPEYE for those that use it has a unique aAa code: 561. His kappa casein is A2/A2 and his sire stack outcross (Balisto x Numero Uno x Xacobeo). POPEYE is one of the most complete Balisto sons available.

Available in sexed semen 4 ML he fits well on your heifers (SCE 6.1) and cow programs

Full sister to POPEYE, Vekis DG Penda has been scored recently with VG-86. Penda her 1st lactation is projected at 10.000 kg milk in 305 days with 3.9% PROTEIN!

TRIPLE IMPACT AAA

The Triple Impact AAA combines three outstanding Aberdeen-Angus bulls, offering pedigrees packed with performance and calving traits to suit the Australian dairy farmer.

- **Extreme high conception semen**
- **Short gestation**
- **Very easy calving**

TRIPLE IMPACT JERSEY & BRITISH BLUE SEMEN ALSO AVAILABLE

Triple Impact, Cogent's fertility enhancing semen, exploits the variations in bull semen maturation rates. Combining semen of three bulls in one straw ensures the semen is active for longer, thereby extending the time during which a cow's egg can be fertilised.

**COGENT SEXED SEMEN
CONTAINS ON AVERAGE**

**92% FEMALE
SPERM
CELLS.**

Cogent are the world leaders in sexed semen technology. Launched in 1999 Cogent have strived to build on its success over the past 17 years. Sexed semen undergoes eight different quality control procedures before being released for commercial sale, considerably more than the industry standard.
