**HOLSTEIN**

Spring 2018

**BREEDING INNOVATION**

[www.cogentuk.com](http://www.cogentuk.com)

With the launch of the Spring 2018 Holstein and Beef Impact catalogues, we are delighted to offer the largest range of top quality genetics, designed to suit a variety of different individual farming systems. With SexedULTRA 4M we have the leading sexed semen product on the market with improved conception rates, allowing the strategic use of sexed semen on milking cows. As the industry is moving towards using Sexed and Beef semen, farmers are taking a combined approach, breeding replacements from the best genetics within the herd and using beef on the remainder, maximising the value of every pregnancy on the farm and driving herd profitability.

**THERE HAS NEVER BEEN A BETTER TIME TO JOIN COGENT.**

# SexedULTRA 4M™

## THE MOST ADVANCED SEX-SORTED SEMEN...

As the pioneers of sexed bovine technology we continue to be the market leader in sexed semen. With almost 15 years experience we are constantly looking for new ways of doing things to improve on the way things are done.

Conception rates approaching those achieved using conventional semen

Twice as many female sperm cells per straw than any other straw on the market

Gender accuracy consistently above 90%

Available on highest genetic sires

# Precision

THE VERY BEST IN HEALTH AND FERTILITY SOLUTIONS

[www.cogentuk.com](http://www.cogentuk.com)

“With Cogent's expertise our heat detection has reached over 60% with a calving interval of 379 days.

**Andy Gubb**  
Precision REPRO customer

**M**y name is Andy Gubb and I help run Barnacott Farm along with my brother Simon and parents Eddie and Christine. We started the dairy business in October 2014 with 200 Holsteins located near Barnstaple in Devon. We wanted a reproductive partner to provide guidance, and approached Cogent for advice around fertility and health to manage and grow our herd. Cogent introduced us to Precision REPRO, a service with a reproductive specialist on hand to serve our cows when

the system tells us the time is right.

With Cogent's expertise, our heat detection has consistently reached over 60% with a calving interval of 379 days. Heat detection rates could improve even further, when we introduce improvements in lighting intensity, loafing areas and even learn how to control the weather!

Our Precision REPRO specialists are considered an important part of our dairy team. The specialists regularly engage in conversations with us regarding cow body condition

score (BCS), feed changes and general management that could have an impact on fertility. We started out with almost all imported animals 2 years ago. To be 2 years down the line achieving a pregnancy rate 8% above the national average is a key achievement for us and our herd has now grown to almost 400.

Is Precision REPRO good value for money? Ultimately the team's objective is to get cows in calf without incurring high costs or compromising other areas of the business, so yes, I would say it is good value.

**Be sure that every cow in your herd is maximising its potential...**

**Call Cogent today!**

**FREEPHONE: 0800 783 7258**

## ↘ DNA

A revolutionary genotyping service designed with your herd in mind. Genomic testing can increase reliability by up to 40%.

## ↘ MATCH

Actively manage genetic recessives & minimise inbreeding. Production, health and conformation parameters are set to suit you.

## ↘ DIY

Individually engineered lease package utilising **MooMonitor+** & Precision **DATA** helping your farm to create more pregnancies.

## ↘ MOOMONITOR+

The latest in health and fertility monitoring for your herd. Stop missing heats and find problem cows earlier.

## ↘ REPRO

Combining **MooMonitor+**, Precision **DATA** & highly trained reproduction specialists drives performance and profitability.

**Using Precision REPRO alone could save you...**

**£82** Per cow Per year

## ↘ DATA

Cloud based system harnesses the wealth of data available on farm, and puts it to productive, performance boosting use.

Choose from a range of **Precision Solutions** to achieve even greater savings.

**Tomos and Glyn Davies**  
Rhydygors Farm, Carmarthenshire.

“Heat detection is bang on now. The number of cows we are synchronising is hardly anything. It's unbelievable.”

Left to right: Lauren Webb, Amy Hall-Brown, Dave Webb, Neil Greggor and Chris Webb

**“PRECISION MATCH LETS US USE THE BEST GENETICS OUT THERE IN A WAY WHICH AVOIDS INBREEDING. IT IS A VALUABLE TOOL TO USE TO GO FORWARD ON A PROGRESSIVE DAIRY FARM.”**

**Chris Webb, Upper Ley Farm.**

## Cogent **HERDPLAN**

HerdPLAN takes financial constraint out of your breeding program. Informed mating decisions are combined with detailed monitoring of genetic progress, with all analyses carried out on farm by expert Cogent representatives. Through HerdPLAN, Cogent become your trusted genetic partner, working with you to improve your genetics, generation after generation.

**FOR MORE INFORMATION CONTACT YOUR LOCAL BREEDING ADVISOR.**

## Precision **MATCH**

Precision **MATCH** is a purpose-built, UK mating service that uses UK figures and is both flexible and adaptable to suit all herds regardless of pedigree status, breed or size. It combines independent evaluators, cutting edge technology and easy-to-use features to ensure that your herd is genetically healthy, has genuine longevity and displays uniformity.

**FOR MORE INFORMATION CONTACT YOUR LOCAL BREEDING ADVISOR.**

**“COMMUNICATION IS VITAL ON THE FARM,  
WORKING IN A TEAM ALONGSIDE OUR PRECISION  
TECHNICIANS IS KEY TO RUNNING THE BUSINESS.”**
