Cogent abide by the AHDB Dairy and Holstein UK Established Code of Advertising

Bulls tested free for genetic recessives will not show these codes for formatting reasons

Welcome to the August 2021 edition of the Cogent Dairy Breeds Catalogue, featuring a comprehensive range of sires across nine different breeds.

This diverse range of breeds coupled with the variety of bulls demonstrate our commitment to offering top quality genetics from the most extensive range of genetics, suitable for any farming system. The genetics on offer has strengthened with the addition of several new sires to the line-up. The impact of SexedULTRA 4M and the new 4M High Purity product continues to impress across the industry with exceptional conception rates ensuring UK farmers can breed heifers from the best females within the herd, enhancing the genetic gain that can be made from the genetics on offer. This, along with the use of innovation in the form of PrecisionDNA and PecisionMATCH, will help maximise genetic gain, ensuring the long-term sustainability of farm businesses for the future.

Cogent's British Friesian collection is one of the best offerings available on the market today. We are proud to offer 13 sires in the portfolio with 8 of these available in SexedULTRA 4M or 4M High Purity. As part of this, 2 new bulls have been added to the offering, Inch Jay and Inch Jigsaw, ensuring the needs are met of both the Pedigree and Commercial British Friesian breeders.
