PROVEN – Proven sire with over 100 calving surveys.

4M SEXED – Sire is available in Male SexedULTRA 4M.

ROYALTY – Sire is eligible for royalty fee for any progeny that is registered as pedigree.

PROVISIONAL DATA – For sires that have under 100 calving's

MEADOW QUALITY – Meadow quality approved Superior Sire Scheme.

BUIBELAAR - Buitelaar approved selected sire scheme.

HIGH GENETIC SIRE – Tesco integrated beef scheme

NOT FOR PEDIGREE USE

Progeny born from this sire can not be registered as pedigree, for commercial use only.

EARLY LACTATION ONLY

It is recommended that this sire is used in early lactation cows to avoid problems associated with older cows at the point of calving.

COGENT BEEF INDEX

Beef visions, Cogent's bespoke progeny testing program, continues to develop and improve its processes to gain more accurate and reliable bull data on our bulls, for UK dairy farmers. More semen than ever before is entering a large number of test farms and visions farms UK-wide, with the aim of graduating more Beef bulls with superior genetics. Improvement in the performance recording of both sire and progeny has allowed for larger and more accurate datasets.

ON-FARM QUALITY ASSESSMENT

The on-farm assessment of quality scoring consists of an overall visual inspection of the calf as well as a manual hands-on approach where the loin, ribs, rump, and shoulder are physically examined to determine the quality grade. The grade is based on the fullness and fleshing cover over these four points as well as an overall confirmation/ muscle formation. The grade is then scored on a 1-5 scale 1 being poor and 5 being excellent. Raw birthweights are now recorded using approved equipment and are analysed using their deviation from the Cogent breed group average.

UNDERSTANDING OUR DATA

A PROVEN BEEF VALUE PROGRAMME FOR THE MODERN DAY DAIRY FARMER

The main goal of the Cogent Beef Breeding Programme is to ensure selection of bulls that can perform in any system, that is why Cogent has partnered with some of the most forward thinking, progressive beef herds in the UK. Working with breeders that implement high herd health plans ensures bulls selected for the programme are free from all diseases such as IBR, BVD, Lepto and Johne's before entering the EU facility. By utilising advanced breeding technologies, Cogent can create multiple pregnancies from programme leading males and females to ensure

they are bringing the correct genetics into the stud. Cogent boasts a state-of-the-art bull stud providing high performance, high quality semen to both UK and international markets. The production facility aims to produce a disease-free product that allows our customers to enjoy the benefits of the beef genetics programme. The quality of the beef semen and advancements in technology and sorting procedures allows Cogent to provide male sexed semen with greater than 90% gender purity, and quality control parameters to match the sexedULTRA 4M offering.

TRIPLE

TRIPLE IMPACT EMI

EASE OF MANAGEMENT IS AIMED AT CUSTOMERS WANTING TO CAPITALISE ON LIVE AND VIGOROUS CALVES BORN WITHOUT ASSISTANCE. ALL BULLS FEATURED IN THIS TRIPLE IMPACT EMI MIX SCORE ABOVE £40 ON THEIR EMI VALUE. AVAILABLE IN SEXED ULTRA 4M

TRIPLE IMPACT HEREFORD

A COMBINATION OF 3 HEREFORD SIRES THAT ARE DESIGNED TO PRODUCE CALVES THAT ARE EASILY BORN WITHOUT ASSISTANCE AND WITH HIGH VIGOUR AT BIRTH.

The **TRIPLE IMPACT** Mixes contain fertility enhancing semen that features three bulls with variations in semen maturation. All the triple mixes provide consistent quality calves that are easily managed and full of vitality.

This product has been designed for UK dairy farmers and provides our customers with consistent calving ease.

IMPACT

TRIPLE IMPACT ANGUS

AVAILABLE IN MALE SEXED ULTRA 4M THIS MIX IS AIMED AT CUSTOMERS WANTING TO CAPITALISE ON LIVE VIGOROUS ABERDEEN ANGUS CALVES' BORN WITHOUT ASSISTANCE.

TRIPLE IMPACT ANGUS SUPER EASY

THE SUPER EASY MIX CONTAINS BULLS THAT ARE RANKED THE HIGHEST IN OUR ANGUS SELECTION FOR £EMI WHICH GIVES THE COWS THE BEST CHANCE TO HAVE A PROFITABLE LACTATION. ALL SIRES IN THIS TRIPLE IMPACT MIX SCORE ABOVE £40 ON THE VALUE

Blackbrook **BAKEWELL**

Sire: Blackbrook Richester Dam: Blackbrook Zoella VG85 Ear Tag: UK200538101026 AI Code: LH0914

We are excited to be able to offer semen from this exceptional bull. The Blackbrook herd has been selected and developed for natural fleshing cattle that grow quickly and suit every system. Bakewell, is an exceptional bull that displays outstanding length over his loin and muscle development throughout. Bakewell is full brother to the renowned Blackbrook Philosopher. This bull will provide exceptional calf quality with easy calving credentials as you would expect from this breed.

MR NANASHI

Sire: Sanjiro 3 2 Dam: Nanashi ET HOH 3U LE 320 Ear Tag: DE0954826447 AI Code: MS0070

Mr Nanashi is the latest addition to our Wagyu line up. The sire holds a fantastic pedigree through both maternal and paternal side. His dam Nanashi is very highly regarded by wagyu breeders across the world for her length, depth, and overall conformation. The sire Sanjiro 3 (FB2900) is a full brother to the original Sanjiro and the highest-ranking carcass and marbling bull in the entire Wagyu breed. We predict that Mr Nanashi's progeny will be extremely easy calving and have exceptional marbling throughout their carcasses.

MR HARUKOE

Sire: World K's Haruki 2 Dam: CHR MS Sanjiro 320 Ear Tag: DE0360343401 AI Code: MS0057

Mr Harukoe has a very special pedigree. His sire is World K's Haruki 2, one of the original Japanese bulls who was exported from Japan to USA in 1993. This bull was recognised for exceptional carcass quality. His maternal grand sire is Sanjiro, who is one of the great marbling bulls. We expect this bull to provide exceptional marbling with outstanding carcass conformation.

AHDB NATIONAL BEEF EVALUATIONS

THE AHDB NATIONAL BEEF EVALUATIONS PROVIDE A SET OF FIVE ESTIMATED BREEDING VALUES (EBVS) THAT ALLOW BREEDERS TO DIRECTLY SELECT BULLS BASED ON THEIR GENETIC POTENTIAL FOR CARCASS PERFORMANCE. THESE FIVE NEW EBVS ARE :

- CARCASS WEIGHT (KG)
- CARCASS CONFORMATION (EUROP CLASSIFICATION)
- CARCASS FAT CLASS (EUROP CLASSIFICATION)
- SLAUGHTER AGE (DAYS)
- AVERAGE DAILY CARCASS GAIN (KG)

THESE EBVS ARE GENERATED BY COMBINING LARGE VOLUMES OF NATIONAL DATA FROM BCMs, PROCESSORS AND BREED SOCIETIES, GIVING HIGH ACCURACY FIGURES FOR BULLS THAT HAVE HAD PROGENY SLAUGHTERED.

BULL NAME	BREED	AHDB Evaluations				
		22/06/2021

PATHWAY

What are the advantages for the dairy farmer?

Pathway Farming are an integrated beef company, specialising in the production of high quality Angus beef for premium retailers. Cogent and Pathway partnered in 2019 to develop a programme which will accelerate genetic improvements within the breed.

Gain access to competitively priced exclusive Aberdeen Angus bulls from Cogent, proven to have short gestation length and low birth

weights, we collect direct from farms in TB-free, TB4 and TB1 areas (Male HF bull calves also purchased in TB1 areas) with payment via BACS and no commission. Male SexedULTRA 4M is available on selected bulls. A major benefit of working with us is our long term, very competitive, fixed price contracts, available for up to 24 months and we also offer quality benchmarked feedback on calf performance through to finishing.

**COGENT ANGUS X CALVES ARE THE PERFECT FIT
FOR PATHWAY FARMING SUPPLY CHAIN.**

What are we looking for?

- **Fit, healthy calves, minimum 43kg weight** (12-40 days of age)
- **HF type cows, minimum bodyweight 550kg**
- **Good colostrum management**
- **Known health status of herd**
- **Sire Ear Tag typed onto passports**
- **AYR or block calving herds**

Whether you have Aberdeen Angus calves available now or are interested in switching over in the future, get in touch.

THE TRAIT LEADERS

The Cogent Beef sires that feature in these trait leader tables are Proven bulls that have been ranked according to their EMI, MVI, calving ease and gestation length scoring. These rankings are highlighted to enable you to make comparisons between bulls and to allow you to select the most suitable beef genetics for your herd.

NATIVE EASE OF MANAGEMENT IMPACT (£EMI)
