

BEEF IMPACT

2020 CATALOGUE

www.cogentuk.com

WELCOME TO THE 2020 SPRING EDITION OF COGENT'S BEEF IMPACT SIRES.

Beef Impact is the premier collection of Beef on Dairy sires specifically tested for performance within the dairy herd. With an ever-increasing proportion of UK beef supply coming from dairy herds, it

is important that dairy farmers are able to select bulls which benefit both them and the beef supply chain.

The Cogent Beef Impact index (£CBI) has been designed purely with the dairy farmer in mind to highlight key strengths of Cogent sires and provides the added

average financial value each sire can deliver per calving, categorised by breed type.

In order to maximise the value of every pregnancy even further, Cogent has introduced MALE SexedULTRA 4M, a market leading sexed semen product with improved conception rates.

BEEF VISIONS

Beef Visions is Cogent's pioneering progeny testing programme. Aimed specifically at producing beef from the dairy industry and involves the participation of UK farmers who purchase and test the semen and return calving survey data back to the company. With incentives offered to the producers for the collection of data, Cogent rapidly forms a profile of each sire, and calculates indexes to identify specific strengths. The programme gives customers the confidence to select proven beef genetics, save money with reduced calving difficulties and by adding value in their beef calves.

HOW IT WORKS:

- Genetic elite sires purchased from reputable breeders
- Semen is collected and distributed across our Beef Visions herds; these are made-up of different sizes, breeds & management systems
- 9 months later, data is collected via the use of our Calving Surveys
- Sires that prove themselves to fit our programme graduate into our mainstream sales and will appear in this catalogue with a Cogent Beef Impact index

If you would like to be a part of Cogent's Beef Visions Programme, please contact your Genetics Consultant.

GESTATION LENGTH

CALVING EASE

CALF VIGOUR

£EMI

EASE OF MANAGEMENT IMPACT

£EMI capitalises on live and vigorous calves born without assistance. Selecting Cogent beef sires ranking highly for £EMI gives dairy cows the best chance to have a profitable lactation.

CALF QUALITY

BIRTH WEIGHT

£MVI

MARKET VALUE IMPACT

£MVI optimises values achieved for beef calves bred from the dairy herd. Using Cogent sires with a high £MVI will help increase prices achieved and reduce time taken for calves to reach optimum sale weights.

£CBI

COGENT BEEF IMPACT

£CBI combines both £EMI and £MVI to give an overall value each calf will benefit dairy farmers on average. High £CBI sires are well-rounded, providing the perfect combination of easily managed calves that achieve high sale prices.

Highly reliable proven sire with data from 100 + calving surveys collected from the dairy herd.

An easy to use guide to reliabilities of calf data collected through Beef calving surveys.

Sire is eligible for royalty fee for any progeny that is registered as pedigree.

NOT FOR PEDIGREE USE

Progeny born from this sire cannot be registered as pedigree, for commercial use only.

Sire is not eligible for export

EARLY LACTATION ONLY

It is recommended that this sire is used in early lactation cows to avoid problems associated at the point of calving.

MR HARUKOE

 Sire: World K's Haruki 2 Dam: CHR MS Sanjirou 320 Ear Tag: DE0360343401
 AI code: MS0057

Mr Harukoe has a very special pedigree. His sire is World K's Haruki 2, one of the original Japanese bulls who was exported from Japan to USA in 1993. This bull was recognised for exceptional carcase quality. His maternal grand sire is Sanjirou, who is one of the great marbling bulls. We expect this bull to provide exceptional marbling with outstanding carcase conformation.

THE TRAIT LEADERS

The Cogent Beef sires that feature in these trait leader tables are Proven bulls that have been ranked according to their EMI, MVI, calving ease and gestation length scoring. These rankings are highlighted to enable you to make comparisons between bulls and to allow you to select the most suitable beef genetics for your herd.

TAKING OUR INDUSTRY HIGHER WITH 

REGISTERING ALL SIRES ON BCMS HELPS US TO
PROVIDE MORE DATA ON THE SIRES YOU CHOOSE.

TRIPLE IMPACT ANGUS

Is aimed at customers wanting to capitalise on live vigorous Aberdeen Angus calves born without assistance.

Fertility enhancing semen that features three bulls with variations in maturation rates.

This product has been created for the UK Dairy farmer and will provide our customers with consistent calving ease.

Quality calves, that are easily born with short gestation lengths.
