SIGNATURE BEEF

Welcome to the latest edition of Cogent's Signature Beef sire collection, our most comprehensive portfolio to date. With over 20 exciting new additions, this year's catalogue represents the largest and most diverse lineup we have ever offered, bringing together elite genetics from the UK and beyond, carefully selected to meet the demands of progressive UK suckler herds. With a strong focus on

female sexed technology, the Signature Beef range gives producers greater control over herd development, enabling the breeding of high-quality replacement females while maintaining the flexibility to produce profitable finishing cattle. Whether you're breeding your next generation of replacement heifers or producing high-value calves for the market, the Signature Beef portfolio provides

a complete, premium genetic solution for the suckler herd. Backed by Cogent's commitment to innovation and genetic progress, these sires deliver the performance, consistency and reliability today's beef systems demand - giving you the confidence that every mating decision moves your herd forward.

4M™ Ultraplus™

SHAPE YOUR HERD'S FUTURE WITH FEMALE SEXED SEMEN

Breeding shouldn't be guesswork. Sexed semen allows you to match genetics to purpose, ensuring each pregnancy builds the herd you want.

Produce consistent, high-quality replacement heifers from your very best maternal cows:

COGENT'S MARKET LEADING FEMALE SEXED SEMEN ALLOWS YOU TO:

Select for maternal traits

Reduce the need to buy in replacements

Tailor calving ease for your heifers

Strengthen biosecurity

What makes this possible? 4M Ultraplus is the world's highest fertility gender-sorted semen with each straw packed with 4 million sperm, sorted using our state-of-the-art technology for highest sperm liveability.

The cogent *difference*

Part of the **STgenetics** group.

WYNDFORD WAGYU

THE WYNDFORD WAY

In partnership with

AT THE FOREFRONT OF WAGYU GENETICS

Located in the heart of England, we at Wyndford Wagyu pride ourselves on our genetically Elite Fullblood Wagyu herd.

We have learnt from exceptional and highly regarded Breeders from around the world and have sourced our genetics globally, to develop our foundation herd. 6 years on we are delighted to have partnered with Cogent, to promote Wyndford bred bulls internationally.

- 100% Fullblood Wagyu Herd
- Breeding Excellence
- UK's Largest Registered Fullblood Wagyu Herd
- Pursuing Genetic Diversity
- Globally recognised Breeding Program
- 65% of Herd in Top1% of the Breed (SRI)

We are passionately dedicated to progressing the Wagyu breed, in the pursuit of exceptional carcass quality.
